CORE TECHNICAL SKILLS

- Microsoft 365 Security Administration
- Azure AD / Entra ID / Conditional Access / MFA
- Microsoft Sentinel (SIEM / SOAR)
- Splunk Enterprise Security Monitoring
- Defender for Cloud / Defender for Endpoint
- Azure Firewall / NSG / WAF / DDoS Protection
- Key Vault / Managed Identity / IAM / PIM
- Vulnerability Management (Nessus)
- Sysmon / Log Analysis / Threat Hunting
- Windows Server / Active Directory / GPO
- Networking / Firewalls / CCNA-Level Security

PROFILE SUMMARY

Cybersecurity and cloud-focused IT professional with 5+ years of experience in enterprise IT operations, Microsoft 365 administration, and security engineering across large-scale environments supporting 4,000+ users. Strong hands-on experience in identity protection, endpoint security, SIEM monitoring, threat detection, and cloud-native security controls. Skilled in Microsoft Sentinel, Splunk, Azure security architecture, and security automation (SOAR). Currently advancing toward Azure Security Engineer specialization through AZ-500 with practical lab-based cloud security implementations

WORK EXPERIENCE

IT & Systems Specialist

Oct 2025 – Present

Musaeus College, Sri Lanka

- Manage and secure Microsoft 365 tenant for 4,000+ users including identity lifecycle, licensing, and policy enforcement
- Implement Conditional Access, MFA, and access governance controls to strengthen organizational security posture
- Administer Microsoft Teams and enterprise collaboration security configurations
- Maintain endpoint hardening and hybrid infrastructure security across cloud and on-premises systems
- Monitor incidents, troubleshoot production issues, and maintain service continuity
- Apply cybersecurity controls across user, device, and cloud layers

Key Achievements

- Enforced MFA and Conditional Access policies across 4,000+ user accounts, significantly reducing unauthorized access risk
- Reduced phishing exposure through systematic security policy enforcement and user identity governance
- Improved endpoint compliance rate by deploying hardening baselines across all managed devices

IT Officer

2022 – 2025

Arpico Insurance PLC, Sri Lanka

- Managed and maintained organizational IT infrastructure including servers, networks, and end-user devices
- Monitored system performance to ensure high availability, stability, and efficiency

CYBERSECURITY PROJECTS

Built 28+ real-world cybersecurity labs covering SOC operations, SIEM, cloud security, and threat detection using Microsoft Azure and Splunk.

Cloud Security Engineering Projects

- Azure Firewall Hub-Spoke Architecture
- Azure WAF + Application Gateway Security
- Azure DDoS Protection Lab
- Azure Key Vault Hardening
- Conditional Access + MFA Security Lab
- IAM + Privileged Identity Management (PIM)

SOC / SIEM Engineering – Featured Projects

- Microsoft Sentinel SIEM Threat Detection Lab – [GitHub](#)
- Sentinel SOAR Automated IP Blocking – [GitHub](#)
- Honeypot Live Attack Map – [GitHub](#)
- Azure Firewall Hub-Spoke Security Architecture – [GitHub](#)
- Azure Conditional Access + MFA Lab – [GitHub](#)
- Brute Force Attack Detection
- SOC Dashboard Monitoring Lab

Threat Detection & Analysis Projects

- Splunk Real-Time Security Dashboard
- Network Traffic Analysis
- Active Directory Monitoring
- Windows Persistence Detection using Sysmon
- Registry-Based Threat Detection

LANGUAGES

- English
- Sinhala

- Troubleshoot hardware, software, and networking issues in a timely manner
- Provided technical support and user guidance across enterprise systems
- Installed, configured, and upgraded operating systems and enterprise applications
- Managed backups, recovery systems, access rights, and IT documentation
- Coordinated vendor support and contributed to infrastructure improvement initiatives

Key Achievements

- Reduced system downtime by 35% through proactive monitoring and maintenance
- Improved help desk resolution efficiency by 40% through structured ticket escalation
- Increased cybersecurity resilience by 50% through firewall and endpoint protection improvements

System Development Engineer

2020

Garment Service, Meegoda, Sri Lanka

Computer Hardware Technician

2019 – 2020

IBM & Micronet Global Services (Pvt) Ltd, Sri Lanka

EDUCATION

Pearson BTEC Level 5 Higher National Diploma (HND) in Cybersecurity

Achievers International Campus, Sri Lanka, 2024 – April 2026

- Distinction – Digital Forensics
- Distinction – Information Security Management Systems (ISMS)
- Merit – Cybersecurity
- Total Credits: 240

CERTIFICATIONS

- AZ-500 Microsoft Azure Security Engineer (In Progress – Expected Q3 2026)
- ISO/IEC 27001:2022 Lead Auditor
- Certified Red Team Operations Management (CRTOM)
- Certified SME Cyber Security Officer (CSCSO)
- Blue Team Junior Analyst Pathway
- ISC2 Candidate
- CCNA (Cisco Networking Academy)
- Cyber Threat Management (Cisco Networking Academy)
- Wireshark & Network Analysis
- Microsoft 365 Administration (MS-102 Learning Path)
